

How to file Motions to Restrict Access to Documents

Local Bankruptcy Rule 9037-1 controls restrictions for this Court. All motions to restrict, redact or remediate personally identifiable information (also known as PII), whether for a claim or document, must be accomplished by outside filers.

A new MP case must be opened and the Motion to Restrict Access to Document event must be used within the MP. If the motion is filed correctly, this should always be docket entry #1.
